NOMADIC CRYPTO

Live anywhere.
Earn everywhere.

Made for curious souls

Built for Base

Version 2

The gap

01 **Trust is fragmented**

Travellers need credible people and accountable community feedback.

02 **Experiences are disconnected**

Social discovery, hospitality and Web3 participation live across separate services.

03 **Digital assets need everyday utility**

Membership and rewards need a clearer connection to real travel and community life.

The first community

Curious souls who share experiences

Travellers, creators and digital nomads who want to meet people and explore new possibilities.

Crypto experience can vary.
Curiosity is enough to begin.

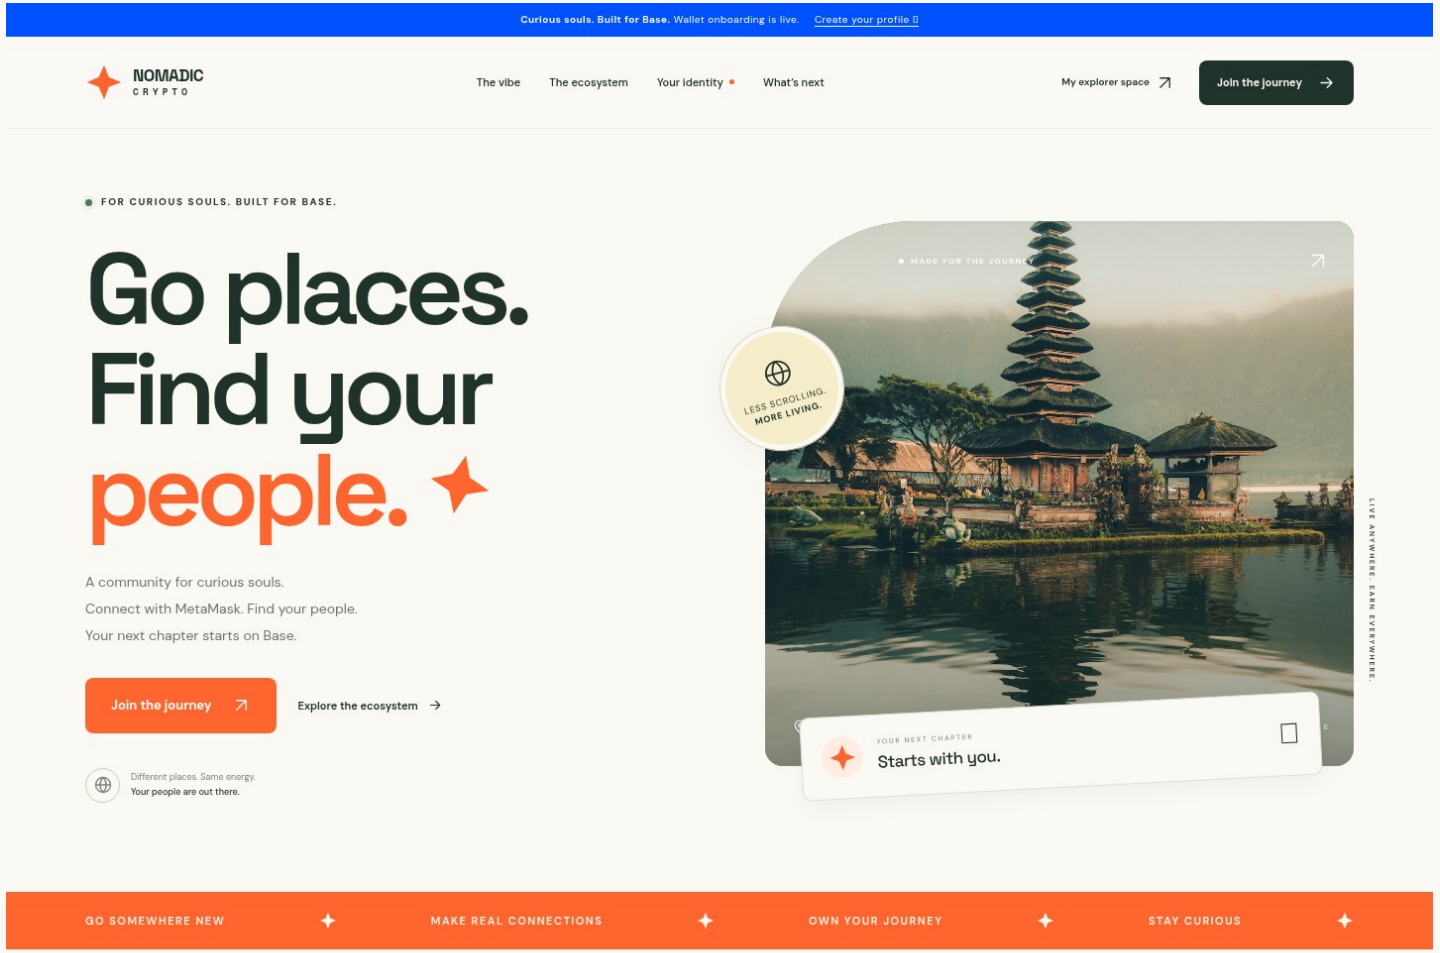

The Nomadic Crypto ecosystem

Community and identity	Wallet profiles, relationships and Soulbound Vibe
Travel and hospitality	Couch Web3ing, Experience Zone and partner access
Creation and commerce	Travel stories, collectibles and merchandise
Participation and opportunity	Travel-to-Earn, ROAM, Nomad-Pad and the treasury

Base wallet onboarding begins the journey

Version 2 onboarding

Onboarding release

Join the journey

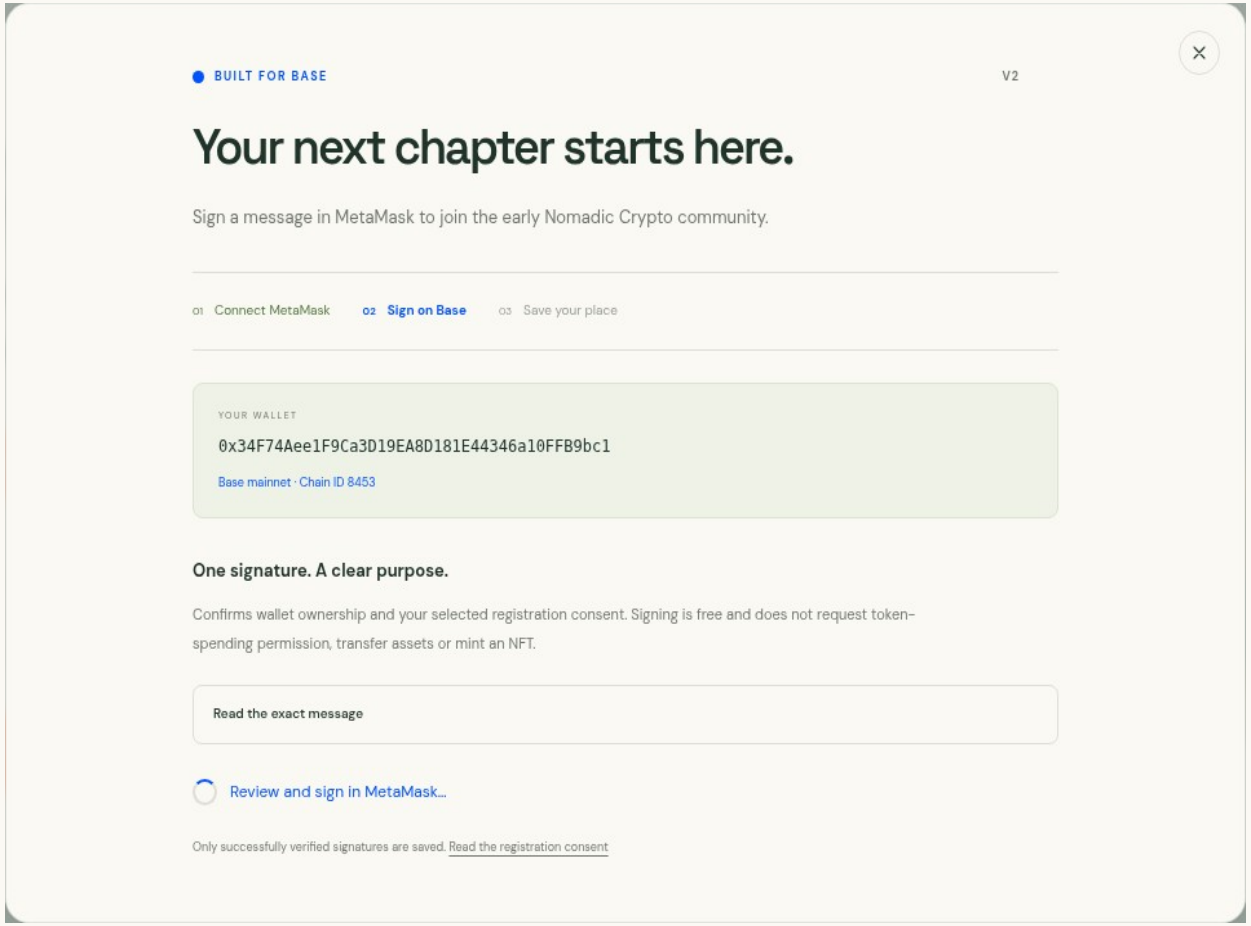

Register for the drop

Apply for membership

Save an explorer profile

[View the public website]

A signature begins the journey

Connect with MetaMask

The member chooses a wallet and confirms the Base network context.

Sign the selected purpose

The signed message identifies the website and the registration action.

Verified wallet consent saves to the database

Local test wallet shown. Off-chain signing confirms ownership and registration consent.

Identity and access

Asset	Role	V2 scope
Soulbound Vibe NFT	Member identity	Signed drop interest
Crypto Nomad NFT	Membership	Planned
Partner NFT	Partner credentials	Planned
Adventurer Pass	Paid membership and early access	Signed applications
ROAM	Payments, access, rewards and governance	Planned

Benefits and onchain activation will be revealed in future chapters

Built for Base

Base

An EVM foundation for the Nomadic Crypto roadmap

Wallet context: Base mainnet
Chain ID: 8453

Identity and membership

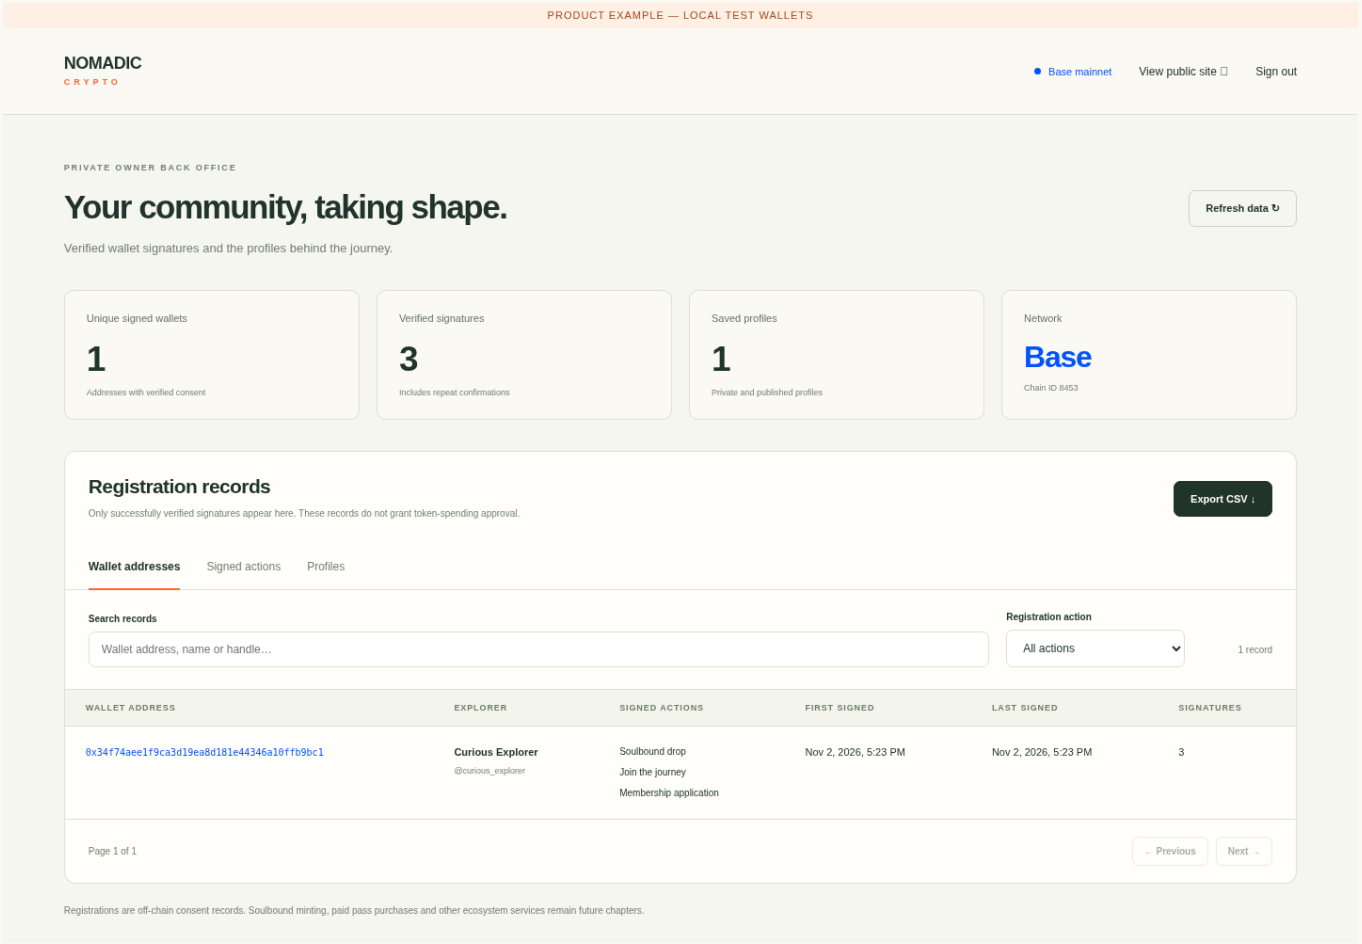

A common network for planned NFT ownership and access.

Payments and participation

Future payment and reward flows can build on the same foundation.

The website and database remain conventional web services

A protected owner backoffice

Owner visibility

Signed wallet addresses

Registration purpose

Consent timestamps

Saved profiles and CSV

Product example — local test wallets

Instagram is the starting channel

Experience sharing introduces people to the community

01

Social discovery

Travel stories and creator content

02

Wallet onboarding

Signed consent and an explorer profile

03

Community participation

Relationships and future contributions

Planned revenue channels

Channel	How it could generate revenue	Activation
Membership	Paid Adventurer Pass access	After terms and pricing
Bookings and trading	Booking commissions and marketplace fees	With transaction services
Partner services	Marketing and sales support	With partner offerings
Merchandise and events	Product sales and event income	As programmes launch

Version 2 focuses on signed interest. Commercial services follow later.

The roadmap

Chapter	Focus	Status
01 Wallet onboarding	MetaMask signatures, profiles and owner backoffice	V2 release
02 Base assets	Soulbound minting and membership purchase flows	Planned
03 Connected services	Stays, experiences, collectibles, ROAM, Nomad-Pad and treasury	Planned

The wider ecosystem opens progressively, with more to discover

What the next phase must prove

Wallet onboarding

Can curious souls complete the connection and signing flow?

Profile activation

Do members create profiles and return to update their story?

Membership demand

Which benefits create enough value for members to pay?

Community trust

Which interactions create useful relationships and reliable feedback?

Early community stage. Adoption and revenue baselines remain to be established.

NOMADIC CRYPTO

Built for Base. Made for curious souls.

An invitation to the people who will help build the first community.
